The word 'Zen' is the Japanese attempt at pronouncing the Sanskrit word 'Dhyana', which translates as 'meditation'. Zen practice is a way of living that incorporates a total togetherness of mind and body to become fully aware, here & now in the present moment; where we truly live.

Home being an integral part of this journey, Cutting Edge Infrastructure realised the need to create such living environments that not only provide an address, but also bequeath the residents with peace & comfort. Consequently, Zen Apartments has been delivering projects at the most affluent & prime locations of Delhi, which not only excel architecturally but also outclass in designing, with attention given to even the minutest of detail. The commitment to Zen philosophy in designing, sets these apartments class apart, elevating homes to very own personal retreats.

If you are looking for a calm oasis in this city of stress, as the place to call "home", Zen Apartments is the perfect answer for you & your family.
